

From the Editor

Next Issues

Year 2016 has ended and *Technical Soaring* still is not on schedule. I apologize. However, the remaining issues of Volume 40 are already under way, manuscripts have been reviewed and finally accepted, typesetting has been started. Therefore, I am confident that we will be able to publish *TS40(3)* and *TS40(4)* in January and February 2017. And with the XXXIII OSTIV Congress held currently at Benalla, Australia, site of the 34th FAI World Gliding Championships, there should be quite a number of very interesting papers available that will find their way into *Technical Soaring* so that we can come back to a quarterly issue very soon.

Publication Date

This issue is the second of Volume 40 of *TS*, corresponding to April-June 2016. For the record, the issue was published in January, 2017.

Acknowledgments

We gratefully acknowledge Associate Editor Mark Maugher, who oversaw the review of the Wolek and Woolsey paper in this issue.

Very Respectfully,

Arne Seitz
Editor-in-Chief, *Technical Soaring*
