ANNOUNCEMENT

2000 KM OSTIV AWARD KUETTNER PRIZE AND TROPHY MODIFICATION OF CONDITIONS

The conditions for this award, announced earlier for a straight-line flight of 2000 km, are changed as follows: The requirement for a specific brand of barograph ("Peravia" or "Aerograph") has been deleted. Any properly documented and certified barogram is acceptable. However, use of a barograph with heading information is still encouraged to facilitate scientific evaluation of the flight.

— Dr. Manfred Reinhardt
President, OSTIV
